## Work Experience

### Python Trainee at Sastaticket.pk

August 2019 - December 2019

During my time as an intern Python trainee at sastaticket.pk, I gained invaluable hands-on experience working with a talented team, honing my programming skills, and contributing to the development of innovative travel solutions.

### Freelancer at Fiverr.com

December 2019 - Present

As a freelance Python Kodi addon developer on Fiverr, I enjoyed the flexibility and autonomy of working on diverse projects, collaborating with clients from around the world, and utilizing my expertise to deliver custom Kodi addons that enhanced the entertainment experience for users.

### Hardware Developer at Neogon.pk

December 2022 - Present

During my tenure at Neogon.pk as a hardware developer, I successfully designed and implemented cutting-edge light controlling circuits, demonstrating my expertise in circuit design, prototyping, and optimizing performance for enhanced lighting systems.
